

Information for Authors

We consider for publication in ”**Applied and Computational Mathematics**” articles which:

- must contain original work
- must not have been published previously
- must not be under consideration for publication in any other journal or book available through a library or by purchase.
- must contain a short abstract (no longer than 50 words) and keywords.

Articles based on theses for higher degrees may be submitted, as may articles presented at conferences, provided these articles do not appear in substantially the same form in a published conference proceedings. Authors of articles are not restricted to being members of any particular institute, society or association.

We encourage you to send us your article in electronic form so it can be refereed without postal delays and be published more quickly. The text of articles may be submitted in any common variant of TeX including LaTeX 2e, LaTeX 2.09, REVTeX, AmSTeX, AmSLaTeX and plain TeX.

Send your article’s single compressed archive file as an attachment to an e-mail address f_aliev@yahoo.com with the words ’electronic submission for acm’ in the subject line.

Our journal announces subscription for 2003. For subscription details and future editorial correspondence please see website <http://www.ab.az/> or contact to following address:
