

MESSAGE FROM EDITORS

Dear Reader,

It is our great pleasure to announce that our Journal "Applied and Computational Mathematics" has been selected for inclusion in the Thomson Reuters Science Citation Index Data Base; it will be listed on the website <http://scientific.thomsonreuters.com/mjl/>. It is notable that this new phase in the history of the Journal was reached after only six years since its initial launching. This accomplishment is undoubtedly due to the efforts of all members of the Editorial Board, the reviewers, authors, and the editors. We thank all for their contributions, and send our congratulations.
